

Emergency Defense Appropriation Bill for Wounded Veterans \$17 Billion for 1000 Holistic Clinics

April 4, 2025

Dear Commander in Chief Donald J. Trump, members of the U.S. Department of Defense, members of Congress and U.S. patriots,

We are introducing this Appropriation Bill to install a network of 1000 holistic clinics across the USA to offer a selection of the best alternative medical treatments for veterans who have suffered a Traumatic Brain Injury or are affected by Post Traumatic Stress Disorder. The marvelous solutions like Hyperbaric Oxygen Therapy, Pulsed Electromagnetic Field Therapy, Infrared Light Therapy, Scalar Wave Therapy, Hyperthermia, Bioresonance, Structured water with Molecular Hydrogen, etc, are the perfect tools for a solid recovery. Unfortunately, there is a war on 'alternative medical devices' that threatens the Standard of care in America.

We are hereby presenting the following articles and videos to highlight the level of emergency that must be understood if we want to improve or fix the flaws and failures of the VA Hospital System.

This Bill is the result of a 20+ years investigation on the cover-up and conspiracy against Hyperbaric Oxygen Therapy and Mild Hyperbaric chambers, which are urgently needed to heal the Active Duty service members and veterans who have been injured by the criminal COVID-19 vaccine campaign.

It has become clear that since March 2020, a new 'war' has been launched against Humanity, but this one doesn't use bombs, missiles, canons, machine guns nor drones, but rather syringes to inject toxic substances brewed in Big

Pharma labs to decrease world population... with vaccines masqueraded as 'preventative medicine,' when they are actually bioweapons:

Previous wars and the current one has caused millions of deaths and injured hundreds of thousands of innocent souls, and casualties are high in the Armed Forces as well. And those who survive among the ranks are often psychologically or physically wounded and are condemned to live a life of suffering until they leave this world after years of pain, misery and despair.

Sadly, the hospitals in the Veterans Affairs (VA) system are only offering the same 'Rockefeller medicine stuff' that is available in civilian hospitals, i.e. toxic pain medications, questionable 'mental health' drugs, dangerous vaccines, risky or useless surgeries, chemotherapy, and radiations for cancer... and now even more vaccines to treat cancer caused by... vaccines.

This is not 'Science,' this is not 'Medicine' either, its nothing else than Big Business with Disease for population control...

On the other hand, the best of health care is offered to amateur or Top athletes, dogs, cats and racehorses, while the Cream of the Crop and brave Active service men and women or wounded veterans are not offered the most effective medical devices to heal or relieve their traumatic brain injuries, pain, distress, anxiety, depression, or to erase painful memories and nightmares, PTSD, etc. which too often lead to attempted suicides. Instead of offering Hyperbaric Oxygen Therapy to heal the brains of wounded veterans, here is what the Canadian Armed Forces are now offering them:

On top of that, the damaging effects of the forced COVID-19 vaccination campaign has decimated the troops affecting 30+ % of active service members with crippling side effects and serious heart and circulatory issues, so the strategic consequences of the mandatory angle taken by the DoD leadership has taken its toll.

Now is the right time to take responsibility for the collateral victims of pre-chewed so-called 'public health protection strategies' developed and pushed by supra-national non-elected organizations like the World Health Organization, which have crossed the lines of illegality and unconstitutionality.

Active Service members and Veterans deserve 100's of Billions for what has been done to them. Let's start with \$17 Billions as they need access to the most effective wellness innovations immediately, which can only happen by ending the War on alternative holistic solutions that have been suppressed and attacked for 20+ years.

Massive funds are invested on recruiting, educating and training the candidates who are joining the U.S. Armed Forces, but now is the time for the Department of Defense and Congress to approve a budget of \$17 Billions for the first phase of installing a network of 1000 'Holistic Clinics' across the USA and on overseas military bases,in order to offer emergency treatments to all Active service members and veterans with the best proven, but censored, Energy medicine and oxygen therapy innovations of the last two decades.

The most spectacular example is Hyperbaric Oxygen Therapy (HBOT)which is very effective for Post Traumatic Stress Disorder (PTSD) and for reversing Traumatic Brain Injuries affecting hundreds of thousands of veterans.However, there has been resistance and blockages against Hyperbaric Oxygen Therapy by some elements within the Veterans Affairs Department for more than 20 years, but the cover-up needs to stop immediately as no other single therapy is more effective than HBOT to help reverse brain injuries.

'There are over 100,000 Veteran suicides since 9/11, and over 876,000 Veteran deaths attributable to lower limb amputations. The VA must be held accountable for using EVERY means available to stop the carnage.'

The report below about HBOT produced by the VA Department is deceptive and fraudulent as there was no true 'control, placebo, or sham'group in the VA studies – 1.2 ATA with air is not a 'sham treatment' but rather an effective

treatment! The Medical Industrial Complex played the same trick in the 1999 Cerebral Palsy study from Quebec, but they got caught: The Undersea and Hyperbaric Medical Society (UHMS) is a corrupt organization and their definition of what is Hyperbaric Oxygen Therapy (1.4 ATA minimum with 100% Oxygen) is a fraud.

February 2018

- Evidence Brief: Hyperbaric Oxygen Therapy (HBOT) for Traumatic Brain Injury and/or Post-traumatic Stress Disorder

<https://www.hsrd.research.va.gov/publications/esp/hbot.pdf>

Extract:

‘June 2017 independent systematic review have concluded that HBOT is no better than sham. HBOT proponents have raised concerns that (1) HBOT’s lack of effectiveness is due to use of amischaracterized sham in the control groups – shams that were not true shams, but were actually therapeutic treatments and (2) bias against HBOT in VA/DoD RCT investigators that has led to flaws in the design and interpretation of HBOT research.’

However, the truth and medical facts are revealed in the following articles, which are definitely exposing an organized conspiracy to cover-up the profound and life changing benefits of Hyperbaric Oxygen Therapy:

Urgent action plan for a major Paradigm Shift

When you add two amazing technologies in combination with HBOT such as Pulsed Electromagnetic Field (PEMF) Therapy and cold laser Infrared Light Therapy to the Protocol, you get even more impressive results for PTSD, TBI and chronic pain which will soon be a thing of the past. Furthermore, vaccine damages can be attenuated or reversed using an advanced protocol posted at the link below.

This \$17 Billions project will ensure two Million+ (2,000,000) veterans and active duty members will be treated in 2024-25. It includes medical devices, equipments, and salaries for 100,000 holistic health care practitioners for 1 year.

Our teams are ready and ecstatic to start taking care of the brave and talented active service members and veterans tomorrow morning. We are putting this Appropriation Bill for Veterans on your desks with the expectation you will approve it without hesitation.

Thank you for doing the right thing for those who fight or fought for us, for Peace and Liberty, by letting them know they deserve the best of Holistic Care for their service and sacrifice for **We the People** and the Republic of the United States of America.
